## TO MY FRIENDS AND PATRONS:

I present you herewith my new catalogue for 1922 of California field grown Dahlia bulbs. The fact that my collection, exhibited at the Panama-Pacific International Exposition and various shows received the highest awards and certificates, is the best guarantee for my patrons. In buying from me, the public will receive the best on the market, absolutely true to name.

I wish to thank my patrons for past orders and can assure them of the best treatment in the future as in the past.

Visitors are always welcome at my farm, especially in blossom time, which is from June to November, when they can make their selections with much greater satisfaction from the flowering plants in the fields. My farm is located on Guttenberg Street, one block east of Mission. Take number 14 or San Mateo cars.

Very sincerely yours,

FRANK D. PELICANO,  
Dahlia Expert.

## CULTURE OF THE DAHLIA

The Dahlia is one of the easiest of all flowers to grow and will produce more flowers than any other plant grown, if the simple cultural directions are followed closely. They can be grown in any good garden soil, but, if possible, plant in an open, sunny location. Prepare the soil thoroughly by digging 12 to 18 inches deep, in the fall, if possible, and again in the spring. Plant any time between April 1 and June 1, digging holes six inches deep and from three to four feet apart. Then lay in the tuber flat on its side, the size of which makes no difference as long as it has one strong eye, or sprout. Cover three inches deep, thus leaving the hole one-half full, to be filled after plant comes up to 6 or 8 inches above the ground. As soon as plant is large enough, cut out the top of it just above the second or third set of leaves, which causes the plant to grow a stout branch at the base of each of the four or six leaves left. Just as soon as the plants are up, the most important thing to do is to keep the soil loose and mellow by hoeing or cultivating once or twice a week, and just as soon after each rain as the soil will permit. As soon as the buds appear, stop all cultivation and give the beds a mulch of rotten manure, leaves, grass clippings, etc., and around the base of each plant place a shovelful of well-rotted manure, if possible. Water the beds and plants thoroughly once or twice a week and especially during the dry weather. It is hardly necessary to water the plants very much until the first part of July, unless we experience a dry season in June, or unless you have them planted in a narrow bed or single rows and the adjoining ground is not kept moist. To have the greatest success is to keep them growing, but as strong and sturdy as possible. Never allow the faded flowers to remain on the plant, but cut them off with as much stem or stalk as you can. Dahlias will continue to bloom until a heavy frost kills the tops in fall, after which the tops are cut off and the roots are dug up and stored in a frost-proof cellar or basement, covering with dry soil, sand or anything that will keep them from shriveling. Divide in the spring after the eyes begin to show.

## PLEASE READ BEFORE ORDERING

**Order Early**—Do not delay ordering until planting time, as many varieties will be sold out. As orders are received, stock will be reserved and sent at the proper time, or sooner, if requested.

**Terms**—Cash with order by Money Order or Bank Draft. Stamps will be accepted for all orders amounting to \$1.00 or less.

**Shipping**—All orders taken at the Dahlia Shows and Gardens last fall and those received this spring will be sent the latter part of April, unless we are advised to send otherwise.

**Our Guarantee**—We guarantee every bulb, root or plant sent out to be true to name and color, and also to be in growing condition when received, after which our responsibility ceases. Please notify at once if anything is unsatisfactory, when received, or any bulb or tuber does not start to grow after planted a reasonable time.

**Substitution**—We never substitute unless asked to do so, in the order, but would suggest naming a few varieties as second choice.

**Name and Address**—Be sure to write name and address very plainly in each letter and send same to the following address:

Decorative Dahlia—General Joffre

## DECORATIVE DAHLIAS

This form is unquestionably the best type of the Dahlia for cut flower purposes, with possibly the exception of the show form—both of these types being quite compact, and, therefore, possess keeping qualities far in excess of other types.

The true Decorative Dahlia has broad, rounded petals and should never show an open center. Nearly all of this type of Dahlia produce flowers of exceptional size and beauty, with splendid long, stout stems. Several of this extraordinary fine collection are of our own introduction. They cannot fail to please the most critical.

	America—One of the best Dahlias for cutting in existence, lasting a week in water; salmon shading to yellow .....	\$0.35
c	Byron—One of the best decorative of its color; deep wine color; a very strong grower .....	.75
c	Carolyn Wintgen—An enormous decorative, each bloom averaging 8 to 10 inches across; salmon pink shading to rose; the blooms held erect on fine, long stems; a beautiful Dahlia for exhibition and good keeping qualities as a cut flower .....	2.50
	Chieftain—Fancy yellow, ground striped with crimson .....	.50
c	Choice—A pretty garden Dahlia and a good cut flower; amber shading to yellow; fine stem .....	.35

Dahlia marked c are of California origin

## DECORATIVE DAHLIAS (Continued)

c <b>Clairmont</b> —A pretty cream shading to pink; hybrid decorative on long stems; a very unusual color; so hard to get, it beats everything for color that has yet been developed; fine exhibition Dahlia .....	\$2.50
c <b>Darkeye</b> —A large, flesh pink decorative; the blooms are first class for garden or exhibition purposes; fine stems .....	.75
<b>Delice</b> —A pretty shell pink .....	.25
c <b>Dr. Tevis</b> —The largest and most beautiful decorative in cultivation, with long, strong stems; blooms average 9 to 11 inches across; color is a beautiful shade of salmon rose, suffused with old gold shading to a golden apricot; the largest Dahlia in existence for exhibition purposes .....	1.00

## EVA PELICANO—NEW DECORATIVE, 1922

c One of the best whites raised; very large flowers on long stiff stems, and are ideal for exhibition at the same time equally as good grown for garden decoration .....	2.50
c <b>Embassador</b> —Deep shade of red. It has a grand habit; the blooms are large, borne on long, erect stems; a very free bloomer.....	2.50
<b>Futurity</b> —A beautiful shade of shrimp pink and old rose.....	.75
<b>General Joffre</b> —A pretty soft pink, shading to white; fine form; fine for garden or exhibition purposes .....	.50
c <b>Grizzly</b> —A large crimson maroon decorative, on perfect stems; originated in California .....	2.50

## GOLDEN GLOW—NEW DECORATIVE, 1922

c Apricot, shading to amber; a majestic flower on long upright stems, a good keeper and useful for the garden and exhibition; an ideal Dahlia for the florist for basket purposes .....	2.50
c <b>Gigantea Sequoia</b> —A beautiful yellow Decorative; a large flower on perfect upright stems; an ideal Dahlia for garden or exhibition purposes.....	2.50
c <b>Henry Maier</b> —One of the best yellows; very large .....	.50
<b>Hortulanus Fiet</b> —Salmon yellow; extra large and good .....	.50
c <b>Jane Selby</b> —A beautiful mauve pink; considered the best of its color; the flowers are large and of fine form and good stem; for cut flower for display purposes nothing better in its color; a California introduction .....	1.00
c <b>J. W. Davies</b> —The deepest shade of Cerise. This grand decorative is very attractive on the plant or the exhibition table. The blooms are supported by usually strong stems which hold them erect .....	7.50
c <b>Kitty Dunlap</b> —Decorative of American Beauty Rose shade, producing huge exhibition blooms. The stems are very long and wiry; a real acquisition and can be recommended for any purpose .....	.50.00
<b>Kaiserin Augusta Victoria</b> —Fine white; good stems.....	.25
<b>Le grande Manitou</b> —A large flower; white, streaked with violet purple .....	.35
c <b>Maryan</b> —Apricot to buff, on perfect stems. One of the most useful varieties, either for garden or exhibition purposes .....	1.50

## MRS. O. D. BALDWIN, NEW DECORATIVE, 1922

c A delightful new shade of American Beauty; the stems are like wire and stand a long time when cut. This variety was one of the most admired in my garden; an ideal Dahlia for exhibition purposes.....	2.50
<b>Mabel</b> —Mauve pink; a fine garden variety .....	.50
<b>Masterpiece</b> —A gigantic flower; rich tango; on long stems .....	.35
c <b>Minnie Burgle</b> —Very bright crimson; good for garden exhibition.....	.25
c <b>Mirante</b> —A beautiful lavender pink on a fine stem; the blooms are very large and deep; fine for exhibition purposes; a California variety .....	.75
<b>Millionaire</b> —An immense decorative, white shading to lavender on upright stems; an exhibition variety .....	1.50
<b>Mme. Charvet</b> —Large white; very free .....	.50
<b>Mme. Rozain</b> —Light lavender shading to heliotrope; a fine garden variety.....	.50
<b>Mme. Van Den Dale</b> —Blush pink; large, one of the best .....	.25

Dahlia marked c are of California origin

## DECORATIVE DAHLIAS (Continued)

c <b>Mrs. Estes</b> —A beautiful hybrid decorative white; the best of the color in cultivation; every bloom fit for exhibition; does good everywhere.....	\$1.50
c <b>Mrs. F. C. Burns</b> —A beautiful shell pink decorative; a fine cut flower variety....	1.00
c <b>Mrs. Kittlewell</b> —Very dark crimson; free; on fine stems .....	.25
c <b>Mrs. R. Lohrmann</b> —A large yellow; a fine variety for show purposes; a California variety .....	1.50
c <b>Mabel Taft</b> —A graceful and beautiful shade; yellow suffused with apricot; very attractive in the garden, the plant having fine form, displaying the blooms on perfect upright stem .....	2.00
c <b>Millie Rodgers</b> —A wonderful flower of immense size; a beautiful color of old gold shading to amber; a wonderful combination, which gives a new effect in colors, the size of the blooms measuring 8 inches in diameter. The flowers are held erect on long stems far above the foliage. As a cut flower the blooms last for days. A pretty Dahlia for garden effect and good for exhibition purposes. The stock is limited .....	2.00
c <b>Mrs. Carl Salback</b> —One of the prettiest decoratives in cultivation; lavender pink; a very full and deep flower on very long, stiff stems. The blooms average 9 inches across and are in big demand for exhibition and very striking in the garden .....	3.00
c <b>Mrs. R. R. Strange</b> —This decorative has the prettiest autumn shade that there is in Dahlias, a very deep copper shading to old gold, on an ideal stem; splendid exhibition variety, and for basket work there is nothing to beat it.....	2.00
c <b>Mary C. Burns</b> —A wonderful color; the outside of the petals are old gold and the reverse a dull red; a very attractive Dahlia in the garden and an excellent exhibition variety .....	3.00
c <b>Oriental</b> —A pretty decorative of fine form; yellow with white tips on perfect stems; a fine variety for garden effect, being a prolific bloomer; also an exhibition variety .....	.50
c <b>Pacific</b> —Cream, shading to pink; a good variety .....	.50
Pierre Le Blond—Maroon tipped, excellent stem, free flowering; very odd coloring makes it a magnificent novelty .....	.50
c <b>Princess Pat</b> —A new California decorative of old rose; flowers are large and perfectly formed, good stems, good keeping qualities and good for exhibition....	2.00
c <b>Pride of California</b> —A fine red; blooms very large on a strong stem; a California novelty which will be in demand for exhibition, and a good keeper.....	1.00
c <b>Scottish Chief</b> —A fine decorative; amber with white tips, on perfect stems; a very tall growing variety .....	.50
c <b>San Mateo</b> —Deep yellow, striped and splashed red, supported by strong stems which hold them erect; the blooms are produced in great abundance. This is one of the best Fancy Decoratives catalogued.....	2.00
c <b>Sunshine</b> —A giant, vivid red with golden tips; an exceptionally large flower on strong stem .....	1.50
c <b>Seabright</b> —Rich amber yellow; large, on fine stems .....	.35
c <b>Theodore Vail</b> —A large decorative, old gold shading to apricot, on long stems; a good keeper when cut for decorative purposes; an exhibition variety.....	1.00
c <b>Virginia</b> —A large, lavender pink decorative on a perfect stem; this variety was greatly admired at the last Palace Hotel and Oakland Shows; this novelty is a first-class exhibition bloom, and a fine garden flower; a California novelty for 1920 season .....	.75

## DR. TEVIS

c The largest and most beautiful of all decorative Dahlias. The coloring is absolutely unique, a soft salmon rose, suffused with old gold, which deepens to golden apricot towards the center. The flowers average from 9 to 11 inches in diameter, and are borne aloft on absolutely stiff, straight stems of great length. The center of this decorative is one of its strong points.

This Dahlia has attracted great attention whenever it has been exhibited, and many California growers have pronounced it the finest and most beautiful Dahlia they have ever seen. The plant is a vigorous and sturdy grower and a heavy producer of blossoms.

Dahlias marked c are of California origin

**Decorative Dahlia—Dr. Tevis**

**DR. TEVIS—Continued**

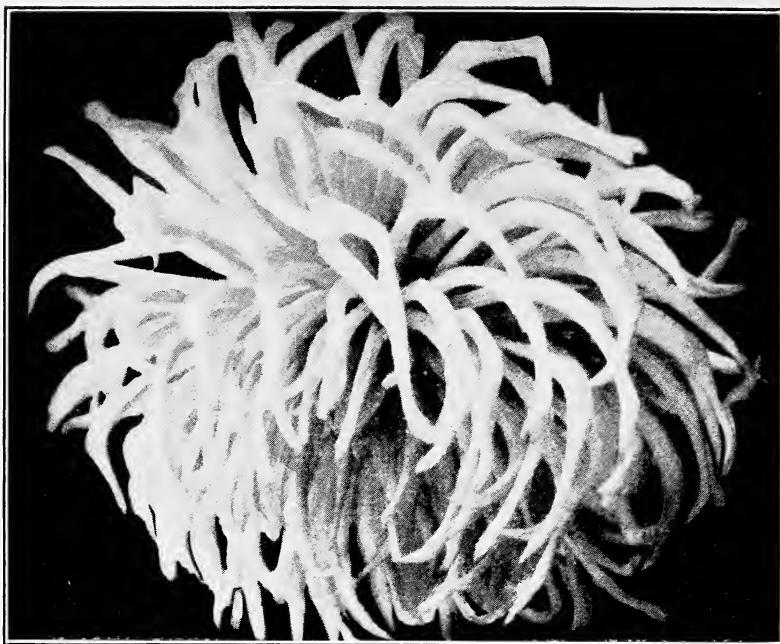

“Dr. Tevis” started its first year as a prize winner when it captured the bronze medal as best seedling in 1915, at the Panama-Pacific International Exhibit. In 1916, it won the first prize for the best two-year-old seedling at the California Growers’ Association at the Palace Hotel. Dr. Tevis continued its prize-winning record in 1917 by winning the gold medal for 25 blooms at the Dahlia Society of California Show at the Palace Hotel, and gold medal as the best three-year-old seedling at the St. Francis Hotel Show, and another gold medal for the best 25 blooms, and gold medal for the best 6 blooms. At the Dahlia Society of California Show at the Palace Hotel in 1918, Dr. Tevis received first prize for Best 25 Blooms, and first prize for 12 Blooms; also prize for Best Single Dahlia in Show.

At the Dahlia Society of California Show at the Palace Hotel in 1919, Dr. Tevis received the second prize for the best 50 Blooms and second prize for the best 25 Blooms.

Dr. Tevis was awarded the first prize for the Best Dahlia in the Amateur Class grown by Mr. A. Simpson.

But its biggest triumph was 1917, in the winning of first prize at the Dahlia Society’s trial gardens at San Rafael. Dr. Tevis won this honor in a competition of nearly 50 other Dahlias.

Dr. Tevis was awarded the first prize for the largest and best flower in the show held by the Park-Presidio Dahlia Society, August 25, 1920.....Tuber, \$1.00

Cactus Dahlia—Edith Carter

### CACTUS VARIETIES OF DAHLIAS

The true "Cactus" form, or type of Dahlia, is that which has the long, sharp-pointed, quilled petal, and was until recently more to be desired than any other type of Dahlia. While the new Peony and Decorative types are rapidly gaining in popular esteem, the Cactus type, because of its elegant form and its richness and diversity of coloring, will still continue to be the favorite with many of our customers. Cactus varieties are, as a rule, very free in bloom.

c	Ballet Girl	—White shading to orange, sometimes the blooms come solid orange. This is one of the best Cactus of true English type raised in America. The plant is a great bloom producer and a first-class variety for exhibition purposes	\$3.00
	Beloit	—Rich purple, garnet; very large flowers, borne on a long stem	.50
c	California Enchantress	—Hybrid Cactus; delightful shade of pink, with splendid stem; very strong and a free bloomer and a good keeper	2.50
	Colibri	—Purple, rose, edge white	.35
c	Eagle	—A hybrid cactus; sulphur yellow; the florets slightly reflex on long, upright stems	1.50
	Edith Carter	—Grand variety; yellow and tipped carmine	.35
	Emblem	—Deep primrose, tipped rose pink; large exhibition size	.35
	E. F. Hawes	—One of the best pink cactus in cultivation	.50
	F. W. Fellows	—The best orange cactus grown; the blooms are very large and deep; the best for exhibition	0.75
c	George Walters	—A prize winner; this is a monster hybrid cactus of lovely coloring; pinkish salmon, shading to a yellow base. The blossom is freely produced on long stems; the flower has petals of great substance, and is good for any purpose. One of the best Dahlias in existence	.75
c	Golden West	—Golden yellow, suffused bronze; California variety	.50
c	Helen Durnbaugh	—Hybrid Cactus; a beautiful pink, shading to white; a fine flower of good size and are held on strong stems	1.50
	Justice Bailey	—Shell pink, blending into lavender; very large flowers	.50
	Kalif	—Bright red; a first-class Dahlia for garden and exhibition purposes	.50
c	La Favorita	—Hybrid Cactus; a beautiful orange salmon of fine form; a large flower with long, stiff stems; a first-class exhibition variety	2.00
	Mary Purrier	—One of the best Cactus in cultivation; a fine scarlet, good stem; a large exhibition flower	0.75
	Matador	—Pink, suffused with rosy lake; very deep and full	1.00
	Mrs. D. Fleming	—The best white; on good stems	.35
c	Mrs. Edna Spencer	—A beautiful white shading to lavender cactus, excellent form and fine stem, good for exhibition; California novelty	1.00

Dahlias marked c are of California origin

### CACTUS VARIETIES OF DAHLIAS—Continued

<b>Mrs. Warnaar</b> —One of the best in its class; mauve shading to white, with perfect stem; one of the best from Holland; a good exhibition flower.....	\$.50
<b>Pierrot</b> —A beautiful cactus, amber tipped with white tips; a first-class Dahlia for all purposes .....	.50
<b>Rupert</b> —Fine orange bronze; incurving flower; on stiff stem.....	.50
c <b>Ruth C. Gleadell</b> —The wonderful “California Sunburst Dahlia” is of enormous size, and in color a soft yellow, shading to an apricot bronze on the outer petals. The immense flower is held erect on a strong stem far above the foliage, and as a cut flower it lasts for days.....	.75
<b>Sweet Briar</b> —Exquisite pink; good for garden and exhibition.....	.35

### SHIRLEY BROWN—NEW HYBRID CACTUS, 1922

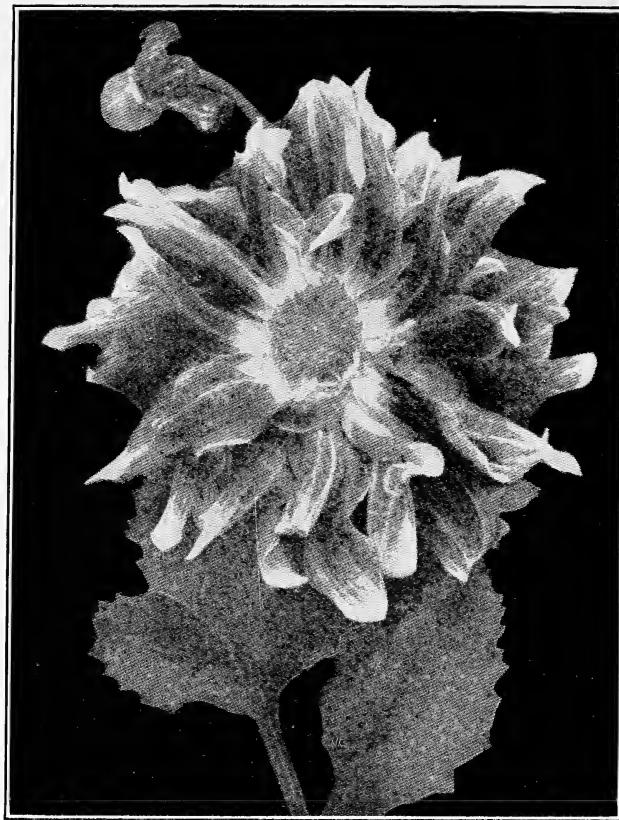

c A lovely shade of apricot; a very large and deep flower. The stems are very long and wiry; it has a fine habit; a first-class Dahlia for all purposes.....	\$.250
c <b>Tom Lundy</b> —A crimson maroon; one of the largest hybrids in cultivation; good for all purposes .....	.50
<b>Wodan</b> —Salmon rose and old gold; one of the best .....	.35
Yellow King.—Very pleasing shade of yellow; the stem is very long and rigid. The formation of long, twisted petals is perfect .....	.50

### POM POM DAHLIAS

This collection consists of the best from England. Each variety is perfect in form and size for exhibition purposes; for cut flowers they will last five days in the home; a vase of this type is graceful.

<b>Amber Queen</b> —Deep amber .....	\$.35
<b>Annie Doncaster</b> —Crushed strawberry .....	.35
<b>Adelaide</b> —Blush, edged with lavender.....	.35
<b>Blush Gem</b> —Pale pink, edged cerise .....	.35
<b>Bobby</b> —Plum .....	.35
<b>Bacchus</b> —Bright red .....	.35
<b>Belle of Springfield</b> —Brick red, smallest in cultivation .....	.25
<b>Crusoe</b> —White, pink tips .....	.50
<b>Cheerfulness</b> —Old gold, tips crimson .....	.35
<b>Challance</b> —Red .....	.25
<b>Doris</b> —Distinct shade of cream, a well formed flower.....	.35
<b>Darkness</b> —Dark maroon, very free and good.....	.35
<b>Darkeye</b> —White, lavender tips .....	.35
<b>Edith Bryant</b> —Yellow with bronze tips .....	.50
<b>Ealine</b> —White, lavender tips .....	.35
<b>Elsie</b> —White shading to cream.....	.35
c <b>Eureka</b> —Bronze, shading to yellow .....	.35
<b>Fashion</b> —Orange .....	.35
<b>Glow</b> —Coral; one of the best for exhibition.....	.35
<b>Girlie</b> —Pinkish mauve .....	.35
<b>Guiding Star</b> —White, quilled petals .....	.25
<b>Gras. Am. Wein</b> —Crushed strawberry .....	.35
<b>George Ireland</b> —Beautiful mauve .....	.35
<b>Harry Snook</b> —Rose pink with white center, fine form .....	.35
<b>Haley Star</b> —Creamy yellow .....	.25
<b>Ideal</b> —Yellow .....	.50
<b>Johnny</b> —Deep crimson maroon.....	.35
<b>Jessicia</b> —Golden yellow, purple edged and tipped .....	.35
<b>Kitty Barrett</b> —Golden yellow, purple edged .....	.50
<b>Lassie</b> —Yellow base, rose tips .....	.35
<b>Little Bugler</b> —Purple .....	.50
c <b>Little Dear</b> —Old rose shading to salmon; a California novelty .....	.50
<b>Little Beeswing</b> —Red shading to yellow, fine form .....	.35
<b>Little Donald</b> —Garnet; one of the best.....	.50
<b>Mars</b> —Bright red .....	.35
<b>Neressia</b> —Rose, tinted silver .....	.50
<b>Nellie Frazer</b> —White ground, tipped rose .....	.35
c <b>Orange</b> —Deep orange shade .....	.35
<b>Phyllis</b> —Yellow shaded and edged red; extra good .....	.35
<b>Phoebe</b> —Orange and red; very fine .....	.35
<b>Rosebud</b> —White, edged rosy pink .....	.35
<b>Sunny Day Break</b> —Apricot edged red; fine form .....	.35
c <b>Sammy</b> —Yellow, tipped brown; a California novelty .....	.50
<b>Sunset</b> —Beautiful tint of orange .....	.35
<b>Unice</b> —Lavender, white shading.....	.35
<b>Wee Gracie</b> —White, tipped with lavender; very pretty .....	.35

Dahlias marked c are of California Origin.

Peony Dahlia—Geisha

#### NOVELTY PEONY DAHLIAS OF MERIT

Although this type of the Dahlia family was originated in Holland only a few years ago, it has become extremely popular and bids fair to outrival the Cactus type in this respect. They are of immense size and have from 2 to 5 rows of long, broad petals, which are generally curled and twisted, giving the appearance in form of a semi-double Chinese Peony, hence their name. They are the finest bloomers and are unequalled for a continuous display in the garden.

c Azalea—A graceful flower; soft salmon shading to old rose, on long, upright stems; a good all-round Dahlia; was admired at the Dahlia shows last season; a California novelty .....	\$0.75
c Copper—A pretty Peony copper colored shading to bronze. In some sections it comes decorative, firm stem .....	.50
Cream King—A large, creamy yellow; fine for exhibition purposes.....	.75
Geisha—The most popular of the Peonies, a stunner; in red and gold; greatly prized for cutting and exhibiting .....	.50
H. J. Lovick—A perfect Peony form bloom, pale lavender, shading to white, with a fine stem .....	.35
Hampton Court—Deep pink; very free .....	.25
King of the Autumn—A pretty amber Peony; a Holland novelty; comes Peony form in San Francisco, but listed as a Decorative in Holland; fine stem.....	.75
Meyerbeer—Purple, lined crimson; the largest Peony in cultivation.....	.75
c Jessie Seal—Large flower, beautiful old rose, with gold shadings, strong stem; an all-round Dahlia .....	1.00
c Gorgeous—Yellow, shading to bright scarlet. This variety was one of the most admired at the Dahlia Show; it has a fine erect habit, producing flowers of gigantic size. This is the largest Peony in cultivation .....	5.00

#### RISING BEAUTY, BEST NEW PEONY 1922

c A wonderful Dahlia of great size, borne on long stiff stems, and very prolific; petals long and flat; color is a brilliant cherry red with tips and outer edge of petals a beautiful gold. This variety has attracted a great deal of admiration wherever it has been exhibited; also has a record as a prize winner.....	\$2.50
Dahlia marked c are of California Origin.	

## COLLARETTE DAHLIAS

Collarette Dahlias are similar in size to the Single Dahlia, but have a row of shorter petals, forming a collar around the yellow disc. They are very bright and pretty.

Amateur Chavanet—A bright flame with a collar of lighter tint.....	\$0.50
Mme. Gygax—Yellow splashed red; primrose collar.....	.35
c Mrs. J. Gallwey—A very large creamy yellow flower, on long stems and straight; the most attractive of its kind; it produces blooms larger than the famous Geant de Lyon, which was considered the largest Collarette in cultivation; as for a cut flower there is nothing better, good keeping qualities; one of the best for exhibition; it has every quality a Dahlia calls for; a California introduction .....	1.00
c Aunt Dina—One of the darkest collarettes in cultivation; of fine form, on stiff stems .....	.50
c Cream Cup—The prettiest of its color in cultivation; pure white, perfect form.....	.50
Sour. Bel. Accueil—A fine orange red with a yellow collar; very pretty.....	.50

## SINGLE DAHLIAS

Union Jack—White, striped red; a very attractive Dahlia in the garden, fine for cut flower purposes in the house .....	\$0.35
Pin Wheel—White with wine crimson border; this midget always attracts attention .....	.35
Dahlias marked c are of California origin	

## SHOW AND FANCY DAHLIAS

These are the old-fashioned quilled, double flowers and still hold a warm place in the hearts of many people.

Mrs. Saunders—Yellow with white tips .....	\$0.35
Nugget—Yellow striped with scarlet .....	.35
Slocombe White—White, very deep and full .....	.75
Yuban—An improved Gold Medal, only larger; fine form.....	.75

## SPECIAL OFFERS

A fine assortment of Dahlias, my own selection of best varieties, giving a good variation of color and type:

6 Different varieties .....	\$1.50
12 Different varieties .....	2.50
25 Different varieties .....	5.00

## TO ALL OUR FRIENDS

We invite them to visit our Dahlia Farm when in bloom from June to November. Take No. 14 (Mission) or San Mateo car; get off at Foote Street.
